## Building Update October 23, 2017

- Massachusetts Fire Prevention, America Alarm and the Fire Department came out on October 12, 2017 and replaced the sprinkler head in the upper level men's room.
- A baby mouse was found in the Children's Room by a patron. Mike McGourty was in with Waltham Pest to set traps.
- Work was completed on the rear brick wall of the building. They will be in this week to fin the interior damage.
- The new chairs, paid for by the Friends, are here.
- Sean Curran from Curran Flooring was in to look at the rubber floor on the lower level. In his opinion, it was an installation issue; that they probably used the wrong adhesive and/or the floor was not scraped enough to get off old material. He suggested that it be buffed on a regular basis and that might improve the appearance.
